Objective

I am a creative, technically driven professional seeking a digital media development position where my creative, technical, and interpersonal skills can benefit a dynamic, forward thinking organization.

Experience

Web Developer Hotwave Media Group, Jensen Beach, FL. 2008-Present

Ongoing projects for a digital media hosting company. include graphic design, video editing, HTML/CSS, PHP and MYSQL development.

Digital Media Developer, Jensen Beach, FL. 2007-Present

I am a student and freelance digital media architect with a passion for designing web applications using the latest development environments. Front-end theming and graphic design and back-end web 2.0 social media integration including all aspects of database and social collaboration tools are complimented by tracking metrics and reporting that form the basis of turnkey, new media enterprise solutions. *"Making the web work for business"*.

Education

Jensen Beach High School. Jensen Beach Florida

- Sophomore, expected to graduate June 2012
- GPA 4.0 (Core academic honor courses; Honors Algebra, Honors English)
- Completed Computer Programming and Digital Design courses

Technical Skills

Although my technical skills are extensive, the following are what I am most proficient in:

Software	Development Tools	Server Management
Photoshop (Adobe certified)	XHTML/CSS	Wordpress
Dreamweaver (Adobe certified)	Javascript	Drupal
After Effects CS4	PHP/MYSQL	Magento Ecommerce
Fireworks CS4	Ruby on Rails	Apache Server
Illustrator CS4	Cocoa/Objective-C	Ubuntu Server
